WHY ATTEND?

THE ANGELA PROJECT CONFERENCE

We gather at the Angela Project in 2018, to un-learn and learn the impact of slavery, Jim Crow, red-lining and mass incarceration on Black America. Because

- 50 years after the death of MLK in 1968, from housing to home ownership, to unemployment, to wealth, to mass incarceration, Black America has not progressed, indeed has regressed.
- The wealth gap is widening between White America and Black America. Black America is denied access to the American Dream.
- Very soon, Black America will have zero wealth.
- We need solutions to prevent Black America from becoming a permanent underclass.
- Re-designation as "Descendants of Slaves" will move all of America toward remedies for black America.

Join Simmons College of Kentucky and these national conventions in Louisville, Kentucky at St. Stephen Baptist Church on September 14-15, 2018 for the Angela Project Conference 2018.
